Subject: RE: USGS Scientific Integrity Survey and Recommendations
Attachments: _epaoig_20200520-20-p-0173.pdf; results_of_the_2016_epa_employee_survey.pdf

Hi all –

Here are the 2 surveys I referred to and the relevant questions from the EVS.

_epaoig_20200520-20-p-0173.pdf is the full OIG audit on us and included the survey. We welcomed the audit – some might even say we requested it – and it was a positive helpful experience.

The EVS Questions we track:

I can disclose a suspected violation of any law, rule or regulation without fear of reprisal.

Arbitrary action, personal favoritism, and coercion for partisan political purpose are not tolerated.

Prohibited personnel practices are not tolerated.

My organization's senior leaders maintain high standards of honesty and integrity.

I have a high level of respect for my organization's senior leaders.

EPA SPECIFIC QUESTION

In our work culture, people feel free to raise dissenting opinions without it having a negative impact on their careers.

Thanks

Francesca
